

EASTER SUNDAY

Can you believe this?

Light and Life

Can you believe what actually happened on the Sunday after the Passover in 33 AD? Jesus rose from the dead. Life is stronger than death! What does this mean for the world? What does this mean for people who are on ventilators, or for refugees, or crowded slum dwellers? What does this mean for viruses and microbes and future microbes? What does this mean for the empowerment of our bodies and God's empowering people like Drs. Fauci and Brix and all our local doctors and nurses? Does this mean we have a God who will fight for us, who will be with us, and who will live in us? What does this mean when you and I have our Good Friday? Will the Father do the same for the rest of His sons and daughters as He did for his only begotten Son? I believe so. That is Easter. I have new-found hope. There is now victory in the air. The enemy still fights for air time, but I now know who will win. On this day, Easter day, I will take a deep breath and I say and pray "He is risen."

PRAYER: Dear God and Father, thank you for the gift of your son Jesus. Turn Him loose on our lung-scarred earth. Turn Him loose on disease and despair and depression. Give us hope and healing and joy. That is Easter. Your Son is risen. Alleluia! Amen.
